

## **Data Science Conference – DSC Europe 22**

### **Breakout Session**

#### **Digital Society Lab - Big Data Methods in Social Sciences**

**17 November 2022 at 10:30, Crowne Plaza Belgrade**

Large amounts of data created by social media users (digital footprints) are useful for the inquiry into the constantly evolving social fabric.

Tools for social media analysis and examples of previous research will be presented by participants of the breakout session as an intro to the discussion about potential scientific collaboration.

This breakout session will serve as an invite to the upcoming [EMERGE 2022](#) Forum on The Future of AI-driven Humanity and the International Scientific Conference on Digital Society Now organized by the [Digital Society Lab](#) at the [Institute for Philosophy and Social Theory](#), University of Belgrade, University of Vienna, and American University of Paris from 16 to 18 December 2022.

#### **Moderators:**

1. Ljubisa Bojic, DigiLab, Institute for Philosophy and Social Theory, University of Belgrade
2. Radovan Bacovic, GitLab

#### **Participants:**

3. Aleksandar Tomasevic, Faculty of Philosophy, University of Novi Sad
4. Igor Pantic, Faculty of Medicine, University of Belgrade
5. Jelena Djuris, Faculty of Pharmacy, University of Belgrade
6. Milica Lukic, Faculty of Pharmacy, University of Belgrade
7. Marija Mitrovic Dankulov, Institute of Physics Belgrade
8. Milan Jenic, Center for Promotion of Science, Republic of Serbia
9. Bojana Dinic, Faculty of Philosophy, University of Novi Sad
10. Bojana Bodroza, Faculty of Philosophy, University of Novi Sad
11. Ana Lipij, DigiLab, Institute for Philosophy and Social Theory, University of Belgrade
